MALIKS GROUP HUB

PAIA MANUAL

PROMOTION OF ACCESS TO INFORMATION ACT 2 OF 2000

Prepared in accordance with section 51 for a private body

DRAFT — LEGAL ENTITY & INFORMATION OFFICER DETAILS PENDING

DOCUMENT CONTROL	DETAIL
Document title	Maliks Paint & Hardware (t/a PowerBuild) — Maliks Group Hub PAIA Manual (Draft)
Version / date	V1.1 / 06 November 2026 — Head Office particulars updated
Entity responsible	Maliks Paint & Hardware trading as PowerBuild — exact legal entity to be verified
Administrative owners	Msallikuti and Azam Malik — Owner / Admin
Technical administrator	Moses Moyana — Developer / Technician Admin
Statutory Information Officer	[NAME / APPOINTMENT TO BE CONFIRMED]
Approval / publication status	DRAFT — NOT YET APPROVED FOR PUBLICATION

This manual describes the records and information-access procedures of Maliks Group Hub operated for Maliks Paint & Hardware, trading as PowerBuild. The Head Office address is 26 Jacobs Road, Chamdor, Krugersdorp, Gauteng, South Africa. Confirm the exact registered legal entity, Information Officer, statutory contact details, processing disclosures and approval before public release.

1. Purpose and legal basis

The Promotion of Access to Information Act 2 of 2000 (PAIA), as amended, gives effect to the right of access to information held by a private body where the information is required for the exercise or protection of a right, subject to the grounds for refusal and other requirements in PAIA. This manual identifies categories of records, explains how to request access and describes selected processing of personal information under the Protection of Personal Information Act 4 of 2013 (POPIA).

“Maliks Group Hub” refers to the digital business-management platform used by Maliks Paint & Hardware, trading as PowerBuild, for store operations, sales support, stock administration, staff workflows, reporting and related modules. For PAIA purposes, the legal private body responsible for the records must be identified by its exact registered name and number before this draft is adopted.

2. Identity and contact details of the private body

REQUIRED PARTICULAR	STATUS / DETAIL
Registered legal name	Maliks Paint & Hardware — registered legal name to be confirmed against current CIPC records
Trading / platform name	Maliks Paint & Hardware | Trading as PowerBuild | Platform: Maliks Group Hub
Registration number	[CIPC REGISTRATION NUMBER — TO BE VERIFIED; do not use an unconfirmed entity]
Physical / principal office	HEAD OFFICE ONLY: 26 Jacobs Road, Chamdor, Krugersdorp, Gauteng, South Africa (street designation follows public company website)
Postal address	[HEAD OFFICE POSTAL ADDRESS — TO BE CONFIRMED]
Telephone	011 762 8051 (number published on maliks.co.za; reconfirm before final approval)
Dedicated PAIA email	[DEDICATED PAIA / INFORMATION OFFICER EMAIL — TO BE CONFIRMED]
Website	https://maliks.co.za
Head / Information Officer	[INFORMATION OFFICER: NAME, TITLE, DIRECT CONTACT — TO BE CONFIRMED]
Deputy Information Officer	[IF APPOINTED — OTHERWISE NONE]

The trading identity, Head Office address, telephone number and website have been added. The exact registered legal name and registration number, current postal address, official PAIA email and statutory Information Officer details still require confirmation. Until those particulars and the processing disclosures are approved, this manual remains a draft.

3. Platform governance and responsible roles

PERSON / POSITION	ROLE IN MALIKS GROUP HUB
Msallikuti — Owner / Admin	Platform ownership and top-level administration; business policy, staff access and governance oversight.
Azam Malik — Owner / Admin	Platform ownership and top-level administration; operational governance, approval structures and business oversight.

Moses Moyana — Developer / Technician Admin	Application development, technical maintenance, support, configuration and security incident escalation under authorised instructions.
Information Officer — pending confirmation	Statutory PAIA and POPIA governance, decisions on record requests, complaints and lawful disclosures.
Managers / authorised staff	Branch- or department-scoped operational records, subject to assigned permissions.

Important: a Hub Owner/Admin or Developer/Technician Admin designation does not, by itself, appoint a statutory Information Officer or authorise disclosure of personal information. The legal entity must formally identify and register the applicable Information Officer arrangements as required by law.

4. Access to the PAIA Guide

The Information Regulator publishes a guide explaining the rights, procedures, forms and remedies under PAIA, including personal-information access under POPIA. The guide and prescribed forms are available free of charge through the Regulator's PAIA resource centre: https://inforegulator.org.za/paia/ . A copy must also be available for public inspection in accordance with the applicable regulations.

5. Records available without a formal PAIA request

Subject to actual publication and lawful restrictions, the following records may be made openly available: this PAIA manual once approved; public contact details; official public notices, policies and company information published on the relevant website; and publicly released product, catalogue or marketing information. This draft does not assert that a section 52 notice has been issued. Internal operational reports, identity records, staff records, customer account data and technical logs are not automatically public.

6. Subjects and categories of records held

SUBJECT	ILLUSTRATIVE RECORD CATEGORIES
Corporate and governance	Ownership/administration registers, policies, appointments, approvals, correspondence, contracts and audit trails.
Stores and operations	Branch task registers, checklists, audit documents, site/maintenance records, incident records and attachments.
Staff and human resources	Employee profiles, access assignments, ID verification information, training, attendance, HR records and assessments where enabled.
Sales and customers	Quotations, orders, customer profiles, sales documentation, debtor/account records and till operations where enabled.
Receiving and inventory	Purchase orders, supplier details, GRVs, counts, stock adjustments, transfers, supplier returns and stock movement history.
Finance and management	Budgets, P&L reporting, expense and capital expenditure records, payments, approvals and reconciliations where enabled.
Transport and dispatch	Picking and delivery records, proof of delivery, vehicle/driver documentation and movement logs.
Platform and security	Account invitations, user roles, authentication/access events, system configuration, logs, support tickets and change

	history.
Suppliers and service providers	Supplier onboarding documents, invoices, service contracts, contacts, correspondence and support records.

These categories describe records the platform is intended or configured to hold. Their inclusion does not confirm that every module is active, that every record exists or that any particular record must be disclosed. All requests are assessed individually under PAIA and other applicable law.

7. Records available under other legislation

The private body may retain statutory records under legislation applicable to its business and activities, including the Companies Act 71 of 2008; Income Tax Act 58 of 1962; Tax Administration Act 28 of 2011; Value-Added Tax Act 89 of 1991; Basic Conditions of Employment Act 75 of 1997; Labour Relations Act 66 of 1995; Employment Equity Act 55 of 1998; Occupational Health and Safety Act 85 of 1993; Compensation for Occupational Injuries and Diseases Act 130 of 1993; Consumer Protection Act 68 of 2008; Electronic Communications and Transactions Act 25 of 2002; PAIA; and POPIA. The list is illustrative: applicability and release are subject to the entity's actual operations and the law.

8. Processing of personal information under POPIA

8.1 Purposes of processing

Where the relevant Hub features are enabled, personal information may be processed to manage employment and workforce administration; authenticate users and allocate store-level permissions; manage customer and supplier relationships; create quotations and operational records; administer stock, vehicle and delivery workflows; perform security, incident response and technical support; comply with legal duties; and maintain records necessary for business administration.

8.2 Categories of data subjects and information

DATA SUBJECT	TYPES OF PERSONAL INFORMATION THAT MAY BE HELD
Employees and candidates	Names, contact/ID data, employment records, roles, workplace, attendance, training results, access and assessment material; photos/video if applicable.
Customers and account holders	Identity/contact details, business information, quotations, orders, balances and transaction history where enabled.
Suppliers and contractors	Names, company details, bank and account information where processed, contact and delivery/contract details.
Drivers, visitors and delivery parties	Names, phone/contact details, vehicle details, delivery documents, signatures and operational timestamps.
System users	Email/account IDs, role assignments, sessions, device or diagnostic data, security and audit logs.

8.3 Recipients or categories of recipients

Access may be provided, on an authorised need-to-know basis, to designated Hub staff and managers; contracted hosting, infrastructure, support, communications or professional service providers; payment processors or financial systems where enabled; and competent authorities where lawful and necessary. Named recipients, contractual safeguards and permissions must be confirmed against the production deployment.

8.4 Transborder processing

Hosting, backup, software support, remote access and third-party services may involve processing or access outside South Africa. The responsible entity must verify the relevant data flows, service-provider locations and POPIA section 72 conditions before making a definitive cross-border transfer statement. This draft does not represent that all data remains in South Africa.

8.5 General description of security measures

The Hub is designed to support authenticated access, role-based and branch-scoped permissions, controlled administrative functions and operational audit records. The responsible entity should maintain appropriate contracts, confidentiality arrangements, access reviews, backups, incident response, secure configuration, retention controls and monitoring proportionate to the information held. Security measures must be independently confirmed against the live deployment; no claim of certified security, encryption-at-rest or continuous monitoring is made here without verification.

9. Procedure to request access to records

- Obtain and complete the prescribed Form 2 (Request for Access to Record) from the Information Regulator.
- Submit Form 2 to the confirmed Information Officer using the official address or PAIA email in section 2.
- Provide enough information to identify the requester and record; specify the requested format of access.
- For a private body, identify the right to be exercised or protected and explain why the requested record is required for that right.
- Provide adequate proof of authority when requesting on behalf of another person; suitable identity verification may be required.
- The Information Officer will consider whether any prescribed request or access fee is payable and notify the requester before payment is required.
- The Information Officer will communicate the decision and any fee or access conditions using Form 3 or substantially corresponding notice.

The ordinary decision period is 30 days after a proper request, subject to statutory extensions, third-party procedures or other provisions of PAIA. If a request is refused or only partly granted, reasons and the available external remedies should be communicated. An internal PAIA appeal is not the ordinary remedy for requests to private bodies.

10. Current prescribed fees and exemptions

The Information Regulator's March 2026 private-body fee schedule provides the amounts below. Fees and exemptions must be checked against the latest official schedule when processing a request. A personal requester may be exempt from the request fee in the circumstances provided for by PAIA.

ITEM	FEE (AS AT NOVEMBER 2026)
Private-body request fee	R140, subject to statutory exemptions
Black-and-white A4 copy	R2 per page or part
Electronic copy on requester-provided flash drive / CD	R40
Electronic copy on CD provided by the body	R60
Audio transcription	R24 per A4 page or part
Search and preparation after the first hour	R145 per hour or part; total capped at R435
Deposit if search exceeds six hours	One-third of applicable access fee (where lawful)

Postage, email or electronic transfer	Actual cost, if any
Specialised visual copies or transcription	Outsourced provider quote, if applicable

Official fee schedule: https://inforegulator.org.za/paia-fees-structure-2/ . The statutory rules and exemptions prevail over this summary.

11. Grounds for refusal, protection of records and remedies

A request may be granted in whole or in part or refused only in accordance with PAIA. Potential grounds for refusal include third-party privacy, confidential commercial information, trade secrets, legally privileged records, certain safety/security information and other protected categories. Applicable third-party notification and severability requirements must be respected. A refusal should give reasons and relevant external remedies.

A dissatisfied requester may complain to the Information Regulator (using Form 5) or apply to a competent court in accordance with PAIA, including applicable time limits and procedural requirements. Information Regulator: https://inforegulator.org.za/paia/ ; general contact enquiries@inforegulator.org.za or 010 023 5200 (verify current details before publication).

12. Platform governance, permissions and confidentiality

The internal Hub access hierarchy is distinct from statutory rights of access under PAIA. An administrator's ability to view or configure operational data does not create a right to disclose that data externally. The recommended allocation of Hub responsibilities is:

FUNCTION	ASSIGNED RESPONSIBILITY / CONTROL
Owner / Admin	Msallikuti and Azam Malik: overall application governance, account assignment, policy review and escalation.
Developer / Technician Admin	Moses Moyana: maintenance, incident response and controlled technical access; no independent disclosure authority.
Information Officer	To be confirmed: PAIA/POPIA request decisions, legal disclosure, complaints and statutory governance.
Store and departmental users	Access relevant to job duties and assigned branch only; access to HR, customer and financial data must be restricted.
Audit and approvals	Use least privilege, maker-checker approvals where applicable and retained records of sensitive administrative changes.

13. Availability, maintenance and authorisation

Once approved, the manual must be readily available without charge on the website of the private body and at its principal place of business for inspection during normal business hours; copies may be provided in accordance with applicable law. The responsible entity should review the document at least annually and whenever material changes occur in the business, legislation, ownership, contact details, technology or data processing arrangements.

This draft is not an appointment of an Information Officer, a completed privacy notice, evidence of a regulator filing or a legal opinion. It should be checked and approved by the responsible legal entity before being represented as a final statutory manual.

14. Publication sign-off

APPROVAL RECORD	SIGN-OFF
Registered legal entity / registration no.	Maliks Paint & Hardware (t/a PowerBuild); registered entity number pending CIPC verification
Information Officer (name + title)	[COMPLETE / VERIFY REGISTRATION]
Business / PAIA contact details	Head Office: 26 Jacobs Road, Chamdor, Krugersdorp; tel. 011 762 8051. PAIA email/postal address pending.
Security, retention and cross-border statements	[VERIFIED BY RESPONSIBLE ENTITY]
Approved by / signature	[SIGNATURE / DATE]
Next review date	[DATE]

Annexure A — Request and compliance checklist

- Confirm and publish legal entity and Information Officer contact particulars.
- Confirm PAIA Form 2, Form 3, Form 5 and the PAIA Guide links are accessible.
- Verify records/categories, automatic availability and the applicable legislation list.
- Verify actual processors, host countries, retention schedules, service provider contracts and technical safeguards.
- Confirm the Information Officer/Deputy Information Officer arrangements and records of registration.
- Publish the approved manual online and keep the required inspection copy at the principal office.
- Assign a request-tracking reference, decision deadlines, third-party notification controls and a complaints escalation pathway.
